

CALL FOR THE MANIFESTATION OF INTEREST

FOR THE RECRUITMENT OF AN ENGINEERING FIRM TO ASSIST Eneo Cameroon TECHNICAL DESIGN OFFICE (B.E.T) IN THE EXECUTION OF DESIGN AND COMPILATION OF TENDER FILES FOR DISTRIBUTION PROJECTS.

BACKGROUND

Eneo Cameroon S.A. is a company with a registered capital of CFAF 47 148 390 000, and a public utility concession holder in charge of the generation, distribution and sale of electrical energy in Cameroon. Our company serves over one (01) million customers throughout the national territory of the Republic of Cameroon for an annual turnover of CFAF 283 165 510 614 in 2015.

Eneo Cameroon S.A. is committed to the development and modernization of energy facilities, in view of improving the state of the MV/LV Distribution network.

In accordance with the above-mentioned vision, Eneo Cameroon S.A. has since 2016 put in place a Technical Project Department operating mainly in the resolution of distribution network problems with the main missions being:

1. Carrying out project definition desk studies;
2. Proposing optimal technical economic solutions;
3. Carry out technical execution studies of various projects;
4. Updating the schematic diagrams of distribution networks;
5. Updating the database of projects;
6. Standardizing distribution network facilities;
7. Carrying out environmental impact studies for APS, and APD phase projects;
8. Participating in the analysis of operation performances of Projects commissioned through Business Value (BV) and Post Implementation Review (PIR);
9. Updating the cost/benefit analysis of the various projects to be carried out;
10. Carrying out studies on the Architectural design of Civil Engineering structures;
11. Studying the problems of Distribution network poles (in wood, concrete, metal, and other materials).

GOAL

With the extension of Eneo's Concession agreement by the State of Cameroon until 2031, the volume of investments will increase crescendo. In order to better meet the growing demands, Eneo Cameroon SA has decided to seek for the services of a Cameroonian Technical Engineering firm specialized in the area of distribution network studies to enable Eneo's B.E.T in studying issues related to its missions.

AIM

This call for tender aims at preselecting Service Providers, compiling a short list of Consultants to take part in the national restricted tender for the hiring of an engineering firm to assist Eneo's B.E.T in the **execution of design and development studies of tender files for distribution projects.**

PRESENTATION OF BIDS

All bids shall contain the bidder's contact information, namely: the location of the head office, company name, share capital, post office number, Trade Reg. N°, email address, telephone and fax numbers.

SELECTION CRITERIA

Bids submitted shall be assessed based on the following criteria:

Technical Criterion

Interested External Engineering Firms shall submit the:

- **Internal organisation;**
- **Senior staff and their CVs ;**
- **Experts and Specialists by domain and their CVs;**
- **Study activities that they are specialized in;**
- **Contracts of study services performed in the past.**

Financial Criterion

Submit a suitable financing strategy that makes it possible to meet the deadline for the commissioning the Project facilities.

BID SUBMISSION

The submission of bids shall take place on 15 October 2019 by **email in PDF protected by a password to the address eneo.tenders@eneo.cm.**

NB: Bidders shall be contacted during the bid opening session for them to reveal the passwords of their bids.

Any inquiry or further information on the project should be forwarded electronically to the following address: eneo.tenders@eneo.cm not later than 7 October 2019.
